

AdminExtra

for Magento® 1

User Guide

1. Configuration

To enable module go to “**System->Configuration->Mageinn->AdminExtra**” section.

There are 2 settings:

1. Enabled – switches module on/off
2. Don't copy images when duplicating product – allows to clear images gallery on product duplicate.
3. Reset URL key when duplicating – allows to unset “Create Permanent Redirect for old URL” checkbox when duplicating product

Set “Enabled” parameter to “Yes” and click “Save Config” button to save configuration.

AdminExtra

General		
Enabled	<input type="text" value="Yes"/>	[GLOBAL]
Don't copy images when duplicating product	<input type="text" value="No"/>	[GLOBAL]
Reset URL key and uncheck "Create Permanent Redirect for old URL" after product duplication	<input type="text" value="No"/>	[GLOBAL]

2. Product Duplication

If you don't want to copy images when duplicating product, module allows you to do that. Set module's configuration parameter “Don't copy images when duplicating product” to “Yes”. Then when you click “Save & Duplicate” button on product edit page media gallery will be cleared for the new product.

3. Attributes Mass Action

Module allows you to set/reset “Use Default Value” option for any attributes and images on a store level using admin mass action.

Select several products and choose “Update attributes” action from dropdown.
